

EZ Launch[®] FOR *KAYAKS & CANOES*

Now with **ACCESSIBLE TRANSFER SYSTEM**

UNIVERSAL ACCESSIBILITY

EZ Dock has taken accessibility to another level with their new EZ Launch Accessible Transfer System for Kayaks and Canoes. A first in the industry, the Accessible Transfer System provides individuals with disabilities universal accessibility that exceeds the minimum requirements of the ADA. The Transfer Bench is built with two heights for easy transfer from wheelchairs of varying sizes and two Transfer Slide Boards to accommodate differing watercraft heights. The Transfer Slide Boards land securely on a railing system that stabilizes the slide board and provides grab bar assistance for easy side movement. All users can simply sit, slide over and drop down into a kayak or canoe then utilize the side rails to pull off or back on.
